About Bay Song

John Keenan and Jo-Anne Wilson-Keenan live near the shores of Cape Cod Bay in Massachusetts, USA. From their home, they hear wind and waves, the song of the bay. This is why they call their musical group Bay Song.

A few years ago, they began writing a nature curriculum for children's summer programs. They integrate literacy, music, math, and art into this curriculum.

As a result of this curriculum work, John and Jo-Anne started writing environmental songs. They also write literacy songs and a few songs that are just plain fun for kids.

Jo-Anne has published numerous articles on literacy, as well as the book *From Small Places: Toward the Realization of Literacy as a Human Right*, Sense Publishers, 2015. She is now writing a book on summer programs for children.
